

National Solid Wastes Management Association's  
**CHAIRMAN'S COUNCIL**

Join other owners and senior managers of privately held companies to visit various waste facilities, including transfer stations, MRFs and landfills, as well as to share ideas about the industry and socialize.

Its spring tour provides a forum for you to find innovative and effective ways to address your operational and management issues. Observe how other companies in the industry are performing their day-to-day activities and learn how your counterparts are dealing with the issues of training, disciplining and motivating their employees.

The tour visits approximately a dozen waste facilities, with ample time for conversation with your industry peers both on the bus, and at various social functions.

Membership in the Chairman's Council is open to members of NSWMA for a fee, which covers tour transportation, all meals, and activities for two individuals. Other people from a member company may attend for an additional fee. This does not include airfare, hotel costs, golfing events or add-on tours.
